SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Normal Operations	Normal Operations	Normal Operations

Coronavirus Disease 2019 (COVID-19)

The Cal OES State Operations Center (SOC) activated 03/02/20 at 0700 hours in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

SMARTER Plan

On 02/17/22, Governor Newsom unveiled the "[California SMARTER Plan: The Next Phase of California's COVID-19 Response](#)". The plan emphasizes continued readiness, awareness and flexibility and helps ensure California can maintain its focus on communities that continue to be disproportionately impacted and stay prepared to swiftly and effectively respond to emerging COVID-19 variants and changing conditions.

CDPH Statewide Travel Advisory

- For more information: [CDC Travel Guidelines](#)

Confirmed California COVID-19 Cases - Per Medical Health Coordination Center (MHCC) as of 02/22/22 at 1600 hours:

- 8,336,730 (+77,704) total confirmed cases.
- 83,523 (+1,381) total deaths.
- Please see the most recent "Situation Report - COVID-19" attachment for additional details.

Cal OES INLAND REGION

- Nothing significant to report.

Cal OES COASTAL REGION

- Nothing significant to report.

Cal OES SOUTHERN REGION

- Nothing significant to report.

Minimal Impacts

Moderate Impacts

Severe Impacts

WEATHER KEY POINTS

03/01/22 - 03/07/22

Tuesday - Monday

- Temperatures will see a significant warming trend through midweek, with some areas across southern California warming back into the 80s
- Dry weather will continue for most of the state through early Wednesday, though some light precipitation is possible across far northwest California by tonight
- A much cooler and wetter weather pattern is expected for much of the state for the latter half of the week and first half of the weekend
 - Generally light to locally moderate precipitation is expected at times Thursday through Saturday night, with the most widespread precipitation currently anticipated to fall later Friday into Saturday, including portions of southern California as well
 - Accumulating snow is expected in the northern mountains, including the Sierra, with the heaviest snowfall currently expected later Friday into Saturday. Snow levels will fall to around 4,500 to 5,000 feet by late week and into Saturday.
 - Periods of gusty winds are likely across the state Thursday through Saturday, with a few thunderstorms also possible for inland and southern areas on Friday
- Drier weather is expected for most areas Sunday and Monday, though some lighter snow showers could linger across the Sierra

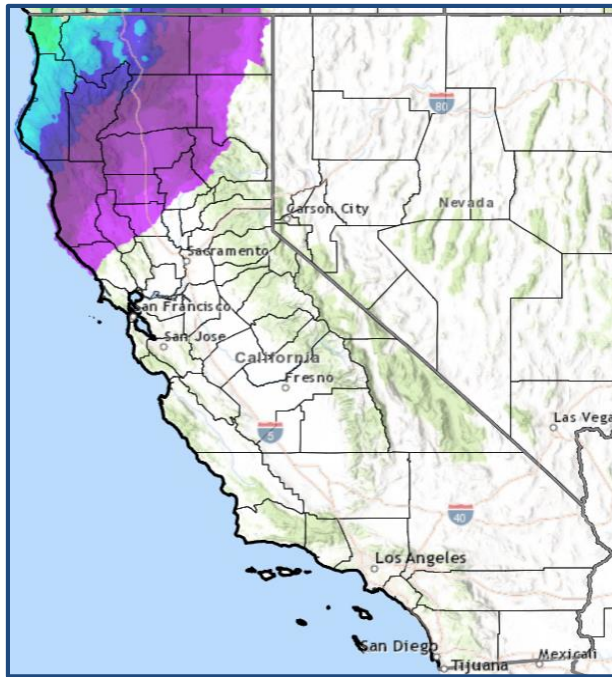

PRECIPITATION FORECAST

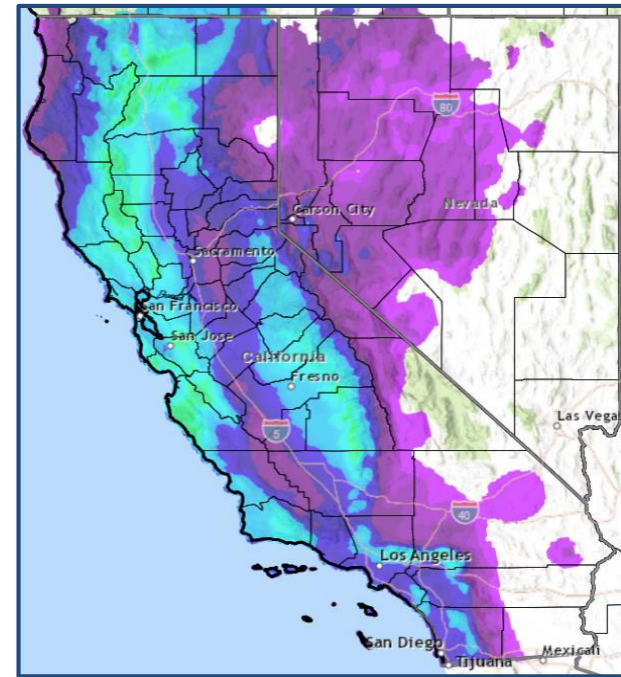

03/01/22 - 03/03/22

Tuesday

Wednesday

Thursday

Note: Forecast precipitation amounts are an average for any particular location. Thunderstorms may produce locally higher rainfall amounts.

Precipitation (inches)

WEATHER OUTLOOK

03/06/22 - 03/14/22

6-10 Day Outlook (March 6 - March 10)

Temperatures

- Below normal temperatures are strongly favored statewide

Precipitation

- Near normal precipitation is favored for the southern half of the state, with below normal precipitation favored across the northern half of California

8-14 Day Outlook (March 8 – March 14)

Temperatures

- Below normal temperatures are favored statewide

Precipitation

- Near normal precipitation is favored for the southern half of the state, with below normal precipitation favored across the northern half of California
